Dr. Koray Feran

BDS, MSc, FDSRCS

Koray qualified in 1989 from Guy's Dental Hospital, winning the Final Year Prize for overall excellence and the S.J. Kaye prize in Oral Medicine and Pathology. He remained at Guy's until 1991 when he went into general practice in North London.

Between 1991 and 1993 he completed the Master of Science degree in Periodontology from Guy's Hospital and at the end of 1993 passed examinations to obtain a Fellowship in Dental Surgery (Restorative Dentistry) from the Royal College of Surgeons on England.

He has since been in practice dedicated to quality dental care, having a special interest in multi-disciplinary cases that require detailed planning and the co-ordination of several specialist branches of dentistry. Between 1996 and 1999 he provided surgical services in periodontics and implant dentistry to three prestigious practices in the Knightsbridge and South Kensington areas, and established his own practice in the West End on London from 1998.

In 2005 he founded the London Centre for Implant and Aesthetic Dentistry (LCIAD Ltd.) in Wimpole Street at the heart of London's dental and medical community. In October 2010, he expanded LCIAD into new larger premises, and established a strong clinical team with in depth experience in the management and care of patients with complex dental problems.

Koray has undergone and continues to undergo extensive postgraduate education in several countries with world leaders in many fields of dentistry and dental technology as well as being a sought-after lecturer in his own right.

A selection of posts that Koray currently holds or has held:

- Member of the British Society for Restorative Dentistry BSDR
- Editorial Team - The Dentist and Dental Update
- Lecturer for Implant Programme, Salford University Implant Master's Degree (2008 - 2012)
- Active Member European Academy of Aesthetic Dentistry (2015 -)
- Course organiser and co-lecturer Sinus Augmentation Hands on Cadaver Course at the Royal College of Surgeons of England since 2008.
