The 12th Annual MEGAGEN International Symposium in MOSCOW

April 16th-17th, 2016
World Trade Center, Moscow, Russia

*Scientific Challenges
beyond Osseointegration*

Greetings

Dear Friends & Colleagues,

Once again we are happy to invite you to a splendid MegaGen International event. In 2016, we will be holding our International Symposium in Moscow.

We have gathered a line-up of speakers who are sure to interest you from well known & loved speakers like Dr. Burton Langer, Dr Joseph Choukroun and Dr David Garber, to a line-up of young speakers who will open your eyes with their innovative ideas and their new way of looking at our field of implant dentistry.

Aside from this opportunity to catch up on science, technology & ideas in our field, I personally am looking forward to all the glorious sites and emotions that our host city has to offer. From the familiar spires of St Basil's cathedral in the Kremlin, Red Square and the GUM department store to travelling about the city on a metro that rivals the museums in some countries, Moscow is an exciting city. A night at the Bolshoi surely will be an unforgettable opportunity if you can get a ticket!

I hope that many of you will be able to join us for another super MegaGen Symposium - or if this is your first time to join our group, we look forward to welcoming you to our family, to sharing our knowledge with yours and hopefully to dancing with you at our MegaGen night in Moscow!

All good wishes

KwangBum Park

Dr. Kwang-Bum Park
CEO

The 12th Annual
MEGA GEN
International Symposium
in **MOSCOW**

*Scientific Challenges
beyond Osseointegration*
