

Course Synopsis:

This one-day course is designed to provide dental professionals with an in-depth understanding of the importance of soft tissue management around dental implants. It aims to enhance their theoretical knowledge and practical skills in managing peri-implant tissues effectively.

Programme:

08:30 – 09:00	Registration
09:00 – 13:00	Lecture
13:00 – 14:00	Lunch break
14:00 – 17:00	Practical Workshop (Pig Heads)

One to One Implant Education has brought together international leaders in implantology to lecture in their areas of expertise including digital dentistry, periodontics, dental business and more. This is a unique opportunity for delegates of our courses to meet these practitioners and gain close insight into their work and careers.

Please email fazeela@mac.com to complete course registration.
Please send by return all contact details, CV, GDC registration and indemnity.

- 4 Understand the role of oral hygiene, regular check-ups, and professional cleaning in maintaining the health of soft tissues around dental implants.
- 5 Apply the learned knowledge and skills in clinical practice to enhance patient satisfaction and implant longevity.
- 6 Stay updated with the latest research and advancements in the field of soft tissue management around dental implants.

**DR. FAZEELA
KHAN OSBORNE**
FCGDent FICD FCOI
Msc.BDS (Lon)
BSC(Hons) LDS.
RCS(Eng) DRDP Dip.
Imp.Dent.(RCS.Eng)
Adv.Cert

Dr. Khan Osborne is the founding clinician of the FACE implant multi-disciplinary team both on the surgical and restorative side, for One To One Implant Clinic based in Harley Street, London.

After qualification, Fazeela held several surgical posts in *Oral & Maxillofacial Surgery*, before studying for a *MSc in Restorative Dentistry/ Gerodontics* which she received with Distinction.

She has always had a passion and *special interest in Implant Dentistry: both on the surgical and restorative full arch rehabilitation of the maxilla*, and has been involved in developing treatment modalities for Peri-implantitis within clinical practice.

She is the *Course Lead for PG Diploma In Implant Dentistry for One To One Education Programme*.

A former Lead Tutor and Assessor for the Royal College of Surgeons, (Diploma In Implant Dentistry) and accredited Mentor; she lectures worldwide on Implant Dentistry and is an *active member of the ADI, BAAD, ICOI*. with Prof. Marcus Abboud on the Post-graduate Implant Programme at Stonybrook University (USA) running a joint programme in Muco-gingival surgery for Implant Dentistry with Prof Cristian Dinu (Romania); and also twinning the Advanced Implant Dentistry programme with Dr Howie Gluckman in Cape town, (South Africa). She lives in West london with her 2 children.

**DR. NIKOLAS
VOURAKIS**
DDS, MSc

Dr Vourakis special interest and main qualification is in Oral Implantology while he has wide experience in all forms of dentistry.

Nik has been a practicing dental surgeon since 2005 after graduating from the prestigious *Military Academy Medical School at the University of Thessaloniki, Greece*. For 2 years undertook training at Oral and Maxillofacial Department in 401 Military Hospital in Athens. As a military dental surgeon, he then went on to serve as a *team leader in a field hospital in Afghanistan from 2006-2007* - an experience which shaped his commitment and dedication to his chosen field.

On returning to Greece, opened his own private dental practice which he ran with great success from 2007 - 2016, *specializing in oral surgery implants and aesthetic dentistry*. Since early 2017 Nik is practicing oral surgery and implantology in private clinics in Edinburgh and London.

Nik has regularly and dedicatedly attended further education programs, seminars, workshops and courses both nationally and internationally. *He holds a Post Graduate Diploma in Oral Implantology from Ethnikon Kapodistriakon University of Athens and a Master of Science Degree (MSc) in Oral Implantology from Goethe University of Frankfurt Germany*. These masterclass courses involved a variety of procedures ranging from master courses in vertical and horizontal bone grafting and sinus surgery grafting procedures through soft tissue management to implantology, prosthetics and dental aesthetics.
