

Dr. Rana Al-Falaki is a multi-award winning global pioneer in the use of lasers in Periodontics, recognised internationally for her groundbreaking work in both minimally invasive periodontics and flapless bone regeneration, with her protocols now being adopted for wider clinical trials in prestigious academic institutes including Harvard and Kings College. As a multi-award-winning and highly accredited executive & leadership coach, best-selling author, and international speaker, with over 30 years of experience in healthcare, she brings a freshness to her presentation style, enabling participants to make true transformation and gain deep understanding of the subjects she teaches. Prior to selling her specialist clinic, she had led it with innovation and success, gaining 5 consecutive years of awards including The Best Periodontal Practice and Most Innovative treatments, and Clinical Excellence. She has featured on mainstream TV, Radio, Magazine covers, and Podcasts and works with professionals to achieve Optimal Performance.

She is founder of the MedDent Leadership & Wellbeing Academy and creator of the award-winning NAIL-IT Leadership System that provides science-backed, data-driven strategies for personal, team, and organisational growth. Using validated assessments such as Wiley's Everything DiSC, The Five Behaviours, and Energy Leadership, she works with individuals and teams to unlock their full potential through insightful analytics, actionable feedback, and tailored strategies.

She is the co-founder of the groundbreaking national wellbeing platform for dentistry in collaboration with The Chief Dental Officer, and her work has also been recognised as a Dental Industry Awards finalist for Best New Service and through multiple industry accolades, including SME Business Elite Award – Most Empowering Leadership Development Company; CEO Today Executive Coaching Award – Professional Training & Coaching Service of the Year; and Outstanding Contribution to the Training Industry – Professional Speakers Academy, for whom she is also a Public Speaking Mentor.

She was recognised in 2025 as being one of Dentistry's Top 50 for her tireless contribution to clinical excellence and wellbeing of the profession.
