

# The **BD Cuff**<sup>®</sup> Advantage

LIVE WEBINAR

## Soft Tissue Management at Molar Sites

How the cuff design supports emergence profile and gingival seal from day one.

TUESDAY, 21 JULY 2026

19:00 UK TIME (BST)

ONLINE VIA ZOOM

### YOUR SPEAKERS

#### DR. MARCUS ENGELSCHALK

PHD, DENTIST, IMPLANTOLOGIST,  
INTERNATIONAL SPEAKER ON  
DIGITAL DENTISTRY

#### DR. HASSAN MAGHAIREH

BDS, MFDS RCS (ED) MSC  
IMPLANTS

### WHAT YOU WILL LEARN

- ✓ **Cuff design rationale** — how the BD Cuff geometry shapes and supports peri-implant soft tissue at molar sites.
- ✓ **Emergence profile from day one** — establishing a natural transition zone at placement, without repeated abutment changes.
- ✓ **A stable gingival seal** — protecting the biological width for long-term tissue health and predictable aesthetics.
