

Redefining Full-Mouth Solutions: From Immediate Protocols to Long-Term Success

Full-mouth rehabilitation is entering a new era—where digital innovation, evidence-based treatment concepts, and long-term clinical success are redefining the way clinicians restore function, esthetics, and patient quality of life.

The 2026 MegaGen European Scientific Meeting brings together internationally renowned clinicians and researchers to share the latest advancements in full-mouth solutions. From immediate treatment protocols and digital workflows to prosthetic planning and long-term maintenance, the meeting will provide practical insights and evidence-based approaches that can be directly applied to daily clinical practice.

More than a scientific meeting, this is a platform for exchanging ideas, challenging conventional thinking, and exploring innovative solutions that improve treatment predictability and long-term outcomes.

Join us in Milan—one of Europe's leading centers of innovation, design, and culture—for a full day of world-class lectures, meaningful discussions, and valuable networking with colleagues from around the world.

Together, let's redefine the future of full-mouth solutions.

Offer!

WITH THE PURCHASE OF 50 IMPLANTS, YOUR MILAN PACKAGE IS INCLUDED:

- Conference registration
- MegaGen Night, gala celebration
- 2-night stay at the Milan Marriott Hotel

PLEASE CONTACT ALGA.ZELDA@MEGAGEN.CO.UK FOR MORE INFORMATION!

REDEFINING FULL-MOUTH SOLUTIONS: FROM IMMEDIATE PROTOCOLS TO LONG-TERM SUCCESS

Save the date!

SCIENTIFIC PROGRAMME

09:00–09:10	◆	Opening
09:10–10:00	●	Lecture 1 Davide Farronato
10:00–10:50	●	iGBR(immediate guided bone regeneration) following tooth extraction: a new revolution Ki-Tae Koo
10:50–11:20	○	Coffee Break
11:20–12:20	●	The Surgical–Prosthetic Interface in Esthetic Implant Dentistry Andrea Agnini · Alessandro Agnini
12:20–13:40	○	Lunch
13:40–14:30	●	Accelerating Implant Therapy: Evidence-Based Strategies for Simpler, Faster and Predictable Treatments Jordi Gargallo
14:30–15:20	●	Breaking the dogma in implant dentistry. Modern solutions for challenging cases Rokas Kuprys
15:20–15:50	○	Coffee Break
15:50–16:40	●	The Hidden Variables in Full-Arch Rehabilitation: Periodontal Risk and Peri-Implant Tissue Stability Roman Casian
16:40–17:30	●	Biodigital Implantology - Engineering Healing for Predictable Accelerated Loading. Shaping the Future of Immediate Implant Therapy Sebastian Beisel
17:30–18:00	◆	Closing

Programme subject to change without prior notice depending on circumstances

SPEAKERS

Main Symposium Speakers

Jordi Gargallo

Ki-Tae Koo

Rokas Kuprys

Roman Casian
